side and the mother on the other side. Good family government is all-important. Anarchy and misrule in the state. What a repulsive spectarie is a home without order or discipline, disabedience and impudence, and anger and falsehood lifting their horrid front in the place which should be consecrated to all that is holy, and peaceful, and beautiful. In the attempt to avoid all this, and bring the children under proper laws and regulations, parents are sometimes carried themselves with great rigor. John Howard, who was merciful to the prisons and lararctios, was mercifus in the treatment of his children. John Milton knew everything but how to train his family. Severe and unresonable was he in his carriage loward them. He made them read to him in four or five languages, but would not allow them to learn any of them, for he said that one tongue was enough for a woman. Their reading was mechanical drudgery, when, if they had understood the languages they read, the employment of reading might have been a luxury. No wonder his children despised him, and stealthily sold his books, and hoped for his death. In all ages there has been need of a society for prevention of crucity to children. When Barbara was put to death by her father because she had countermanded his order, and had three windows put in a room instead of two, this cruci parent was a type of many who have acted the Nero and the Robespierre in the home circle. The heart sickens at what you sometimes see, even in numities that pretend to be Christians-perpetual scoiding, and teasing, until the children are post, and inomping, and stamping, and earboxies, and inomping, and stamping and sampled his order, and a table of eight addes, because he had eight children, and the only way to keep them out of hiter quarrel was to have a separate appointment for each one of them.

Union Ex-Prisoners' Entertainment The mere announcement that the associa-tion of Union Ex-Prisoners' of War are to give a musical and literary entertainment on Tuesday (to-morrow) evening, at Grand Army Hall, opposite Willard's Hotel, should be enough to fill that hall to its utmost capacity. No worthier class of exceldiers exist than the brave men who suffered untold miseries in the military prison pens of the south during the late civil war; and their comrases of the Grand Army and our citizens should respond to this call by purchasing tickets, which have been placed at the reasonable price of twenty-five cents for adults and children, under 10 years of sge fifteen cents. From a look at the programme a treat is in store for all who attend, as some of the best vocal, instrumental, and reading talent in the city will take part. EVENTS OF INTEREST TO THE LOVERS OF SPORT.

Financial Success-Strengthening the Washington Team-More New Blood Injected-Meeting of the League.

The racing at Ivy City for the season of 1887 ended on Saturday, and, from a financial as well as a racing standpoint, the year has proven a most satisfactory one. The Naional Jockey Club has cleared a considerable amount of money and the racing public have been treated to contests of speed be-tween the thoroughbreds such as has never before been witnessed in this vicinity. The octore been witnessed in this vicinity. The Jockey Club have every reason to feel proud of the result of their efforts to furnish an attractive meeting, and the majority of the officers of the club have furnished ample evidence that they are wide awake, up to the times, and are to be congratulated upon their whole-souled endeavor to please. To none, however, is more lasting credit due than the able and paintesking secretary, Hugh Molatyre. Both early and late his untiring energy and perseverance has been exerted in behalf of the interests of the Jockey Club, and to such an extent as to make the Ivy City track one of the most pleasant for visiting borssmen to frequent. Every facility for the comfort of both man and beast is carefully guarded and provided, and as a consequence the picturesque track has gained high fayer among race men and owners of racing stoes. During the supplementary meeting the attendance was not so large as that of the first and second weeks' racing, but this fact is due mainly to the bleak and chilly weather. Those, however, who braved the winter blasts were amply repaid for their visit, as at no time was the interest allowed to flag, and the trials of speed were such as to keep the most hardened turitte in a state of excitement. Jockey Club have every reason to feel proud

As to the movements of the local club very
little can be ascertained, as the management

His decision will be given after the League

SERIES OF PRAYERS SERVICE Inaugurated Under the Auspices of the

International Y. M. C. A. Union services were held last night at the First Congregational Church, under

the auspices of the International Y. M. C. A. On the platform were Mr. J. G. Ames, president of the local branch: Dr. S. H. Greeve, Dr. S. M. Newman and Mr. W. H. H. Smith, superintendent of the Sunday Schools' Union.

Mr. Ames, in bis address, stated the occasion to be the first of a series of prayer service to last through the week, and to be held throughout the civilized world. He referred generally to the work of the local branch, and introduced Dr. S. H. Greene, who was perfectly in accord with the aims of the association. He referred to the tendency to centralization in the large cities, to the foreign element mingling in them, to the dargerous classes and their doctrines, and to the noble work and large field before the Y. M. C. A.

Dr. S. M. Newman said it was singular that as the pancrama of biblical history

the Y. M. C. A.

Dr. S. M. Newman said it was singular that as the panorama of biblical history unfurled itself, the characters in the first scene were two young men—Cain and Abel. He then drew a vivid pleture of the slayer's wanderings. In his opinion the earliest impressions of the young decided the character of the man in later life, and he hoped that the Y. M. C. A. would have the hearty support of all.

Mr. W. H. H. Smith, in characteristic address, said the subject was large, the evening late, and requested every one to contribute toward defraying the expense of the international committee which last year were \$50,000. The international committee had general supervision over all local branches, organizing, and instructing them. The church had the young man onday in the week, hell was after him the other six, while the Young Men's Christian Association looked after his spritual and physical welfare. He reported the Young Men's Christian Association as making great progress, and stated the percent, of increase in membership during the last five years exceéded 86 per cent.

The services were then concluded with a service of song.

The following is the programme for the week of prayer to be carried out at the S. H. Greene. Tuesday: Tople, "Guarding the center and outposts;" leaders—noonday, Rev. C. B. Ramsdell; evening, Rev. "Lingg was the scalawag who did it all, Spies would not have been executed if these be miss had not been found in Lingg's cell. Why, that miserable rat asked for a pencil and paper to write some deviltry on only five minutes bofore he died. It is a mystery to me how he managed to conceal that fulminating cap about him with which he took his life."

Being asked in German, the language in which the interview was held, what he thought Lingg intended to do with the brunds. Schwab replied: "I think he was going to explode them among the jail officials and others who would be present at the execution, and murder as many as he could regardless of the consequences to himself. The actions of this wretch were what prevented a commutation for poor Spies. I do not think the police or jail officials had anything to do with the bombs found in Lingg's cell, and do not know how he got possession of them."

At this point Fielden, who had just been weighed, measured, &c., came and took a seat on the beach beside Schwab, whom he did not appear to recognize in his prison gorb and with his beard shawed off. Maj, McGlaughrey then stepped up to Scwab, and, calling him by name, asked if he hair any lung trouble. Before he could reply Fielden, with a look of amazement on his face, turned, and, looking squarely at his companion in erime, said, "Is that you Schwab." The latter said "yes," and the warden added, "Yes, this is Mr. Schwab." At this Fielden burst into a hearty laugn, and said that he never would have known it was Schwab he was so changed in appearance—a fact that applied equally to himself.

The only true way to obtain Pure Water is by the filtering process. Most filters now in use require constant attention; become clogged with filth, vermin, or animalcule. In other words, they become in themselves Cesspools of Disease.

The McDonald Filter Is Self-Cleansing, Simple, and
